ALEXANDRIA, VA., FRIDAY EVENING, MAY 16, 1902.

PRICE 2 CTS.

MEDICINAL.

A Sudden Twinge

Of pain is generally the first warning of an attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of rheumatism is found in impure blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous substances which are the cause of the disease. It not only purifies the blood but by increasing the activity of the blood-making glands, it increases the supply of pure, rich blood which adds to the vigor of every physical organ.

Mr. R. A. McKnight, of Cadiz, Williamsburg Co., S. C., writes: "I had been troubled with rheumatism for twelve years, so bad at times I could not leave my bed. I was badly crippled. Tried many doctors and two of them gave me up to die. None of them did me much good. The pains in my back, hips and legs (and at times in my head) would nearly kill me. My appetite was very bad. I took five bottles of the 'Golden Medical Discovery' and four of the 'Pelle's', and today my health is good after suffering twelve years with rheumatism."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

TRIED TO BRIBE NIXON.

The New York Tribune of yesterday has the following:

Lewis Nixon, whose reputation for integrity never was questioned by those who knew him, was repeatedly, after affiliating himself with Tammany, subjected to indignities by people who thought that he could be bribed. Following his retirement from the leadership of Tammany Hall yesterday, there was made public by his friends an astonishing story of an attempt to get him to change the specifications for the steel for the Williamsburg Bridge by the payment to Mr. Nixon of \$100,000 in cash or its equivalent. He indignantly spurned the proffer, and was with difficulty restrained from assaulting the man who tried to bribe him. The story, which comes to The Tribune from apparently entirely credible sources, is as follows:

Just after Mr. Nixon was appointed by Mayor Van Wyck as president of the new East River Bridge Commission, in 1898, the question of the kind of steel to be used in the new bridge came up for settlement. Chief Engineer L. B. L. Buck, backed by the opinion of the leading bridge experts, decided that "acid" steel should be used. This is more expensive than other grades of bridge steel, but is of greater tensile strength, and Mr. Buck insisted that it should be used. With the appointment of Mr. Nixon, parties interested in having the specifications altered concocted a villainous scheme for bribing Mr. Nixon who, as Richard Croker's personal friend, was considered "reachable."

An old classmate at Annapolis, it is said, was chosen to do the "dirty" work. He called on Mr. Nixon at his home, and during the evening conversation drifted quite naturally to the bridge contract and the kind of steel that was to go into the structure. Mr. Nixon's old classmate proposed to him that a certain grade of steel would answer all purposes for the bridge and that if Chief Engineer Buck could be overruled it would be, either directly or indirectly, worth \$100,000 to Mr. Nixon. Springing to his feet, Mr. Nixon is alleged to have said:

"—," calling him by name, "you have insulted me. I never thought you could think me capable of taking a bribe. I fought to knock you down. I'll let the insult go because it may be that you are under the influence of liquor and don't know what you have said."

Then the old friends parted enemies. When Mr. Nixon was seen by a reporter and informed that the incident had attracted attention he was greatly agitated.

"I didn't suppose any one knew a word about this," said he. "How could you have read it? No, it is not true that I was offered a bribe—that is, it never got to a downright offer of money. I much prefer that you say nothing about the matter."

Mr. Nixon lost no time in assuring Chief Engineer Buck that he thoroughly concurred in his judgment as to acid steel for the bridge, and that, no matter what he might hear or rumors, he could depend upon it that he would not be overruled.

NO SMOKE IN FIRING GUNS.—Result have been obtained by the ordnance officials of the naval gun-proving station at Indian Head, on the Potomac, through which a gun may be fired with the heaviest charge without showing the usual little cloud of white fog or vapor which smokeless powder gives. The method through which this valuable development of burning powder without the least semblance of smoke being visible will remain a secret with the American ordnance officers, and is the first successful effort made here and abroad by which guns may be fired with only the whizz of the projectile and the report of the discharge to proclaim the fact. Lieutenant Joseph Strauss, the inventor of the superimposed gun turret, applied to the battleships Kearsarge and Kentucky, acting under direction of the Ordnance Bureau, has been conducting these trials for months. The process of igniting smokeless powder heretofore has been through the use of small quantities of black powder used in connection with the smokeless, and with which it is made to burn quickly. The result has been to cause a slight cloud of faint white smoke—enough, however, to disclose the fact of the gun being fired. The new invention does away with the use of the black powder and enables the smokeless variety to be quickly ignited and made to burn as rapidly as under the old process, and at the same time produces no smoke.

AFTER ILLEGAL FENCIBLES.—The famous old Confederate colonel John S. Mosby, leader of the most desperate cavalry commands of the civil war, is again in the saddle, but on this occasion as United States special agent to protect the government domain, Col. Mosby, the same interloper man as of old, when mounted on his swift charger, at the head of his dauntless dragoons, he dashed fearlessly into the ranks of the enemy, is creating the same confusion among the big cattle

companies who have illegally fenced in millions of acres of government land, not only forcing out the small stockmen but preventing homeseekers from locating thereon. In one section of Nebraska more than 6,000,000 acres, valued at more than \$9,000,000, has been illegally fenced.

It is understood that the big cattle interests have offered every inducement to call him off, but he turns a deaf ear to their most alluring offers. He goes after a law breaker with the same spirit of enthusiasm with which he used to go after the Yankee cavalry, and in three months has created more trouble than the grabbers of government land had seen before in fifteen years. The cattlemen are beginning to realize that the old guerilla still loves a merry fight, and can fight hard.—(Ranche and Range.)

When you wake up with a bad taste in your mouth, use Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for cough, cold, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure" is the best cough medicine I ever used," says J. W. Bowles, Groverton, N. H. "I never found anything else that acted so safely and quickly. For sale by E. S. Leadbeater & Sons.

FOR SALE.
